

Angels, Demons Gods of the New Millenium: Musings on Modern Magick By Lon Milo DuQuette

**Book Angels, Demons Gods of the New millenium allium** s United States Deputy Lon Milo DuQuette is an American singer song writer author lecturer and occultist best known as an author who applies humor in the field of Western Hermeticism. **Biographies Memoirs Angels, Demons Gods of the New millenium hilton** On the one hand he manages to convey the most important information about a subject in a very clear and simple kind of language - unlike authors such as Crowley or Kenneth Grant whose works are riddled with a vast amount of allegories metaphors and other embellishments so that the side stories can easily distract from the main content. **Angels, Demons Gods of the New Millenium Religion spirituality definition** On the other hand I have found his books that I have read in the past rather dry and his proclaimed wit has always eluded me; other than the occasional self-deprecatory remark and amusing comparison with real-life situations his work tends to be very factual and in a style which I found rather tedious - but that is obviously a personal opinion. **Book Angels, Demons Gods of the New millenium smoke** The only thing that is unfortunate is that there used to be a colour foldout containing the 72 names of God and their associated angels and demons inside the book but the publisher apparently decided that it was too expensive to include it in future editions. **Book Angels, Demons Gods of the New millenium mall** A graphic of the foldout is available on the internet albeit in rather low resolution so a friend of mine (who bought the book at the same time as I did) has contacted Lon for a better quality version and hopefully we will hear from him soon. **Biographies Memoirs Angels, Demons Gods of the New millenium hilton** Religion Spirituality Biographies Memoirs A delightfully entertaining liberal arts education in Western Hermeticism with one of America's most knowledgeable and engaging authorities! Each chapter is a self-contained monograph on one of 7 topics critical tounderstanding modern magick,
