Most of all this book is FUN, **Pwned slang** I personally cannot WAIT for her next novel to be released! 380

. Or fight back. erika-mitchell.com. Pwned comes as a pleasant surprise. Stories about gamers tend to go one of two ways. The other borders on bad fan fiction. These are true gamers. It is a part of their lives and only one part. There are some first timer clichés or stand bys. The description of the book is misleading. Sean Boxer doesn't fight back. He uses his Starcraft strategy: defense. Bordering on

passive-aggressive Sean barely confronts his problem. Instead he finds ways to work around it. The details make this a great read for gamers. Mitchell proves herself a skillful newcomer. I look forward to reading more from her in the future. 380 I won a copy on Goodreads First Reads. That is saying a lot for an action book. Sean is likeable and it is very easy to root for him. Mercedes is every male gamers dream. Enter PWNED. A Thriller about an author/gamer. Immediately my nerd-radar starts beeping with interest." (Note to self: ... ha just kidding
