I think Callister is sincere and himself rationally convinced. Many of his secondary sources are prominent and respectable. But it is far from the most natural narrative. That doesn't mean it's wrong. And I imagine Callister would agree with that. And that certainly is prominent in the documents. But that's a big leap. That was the whole point. Another interesting one is baptism for the dead. Highly recommend. He is just so so good at making an argument. I highly recommend this one. Religion Nonfiction Spirituality.
