Donations for this fund will be used to allow authors and illustrators to speak at local schools and libraries: Everyone Else's Parents Said YesI found this book really boring. I wouldn't recomend it there are many more books better than this one for kids to read, I was going to get rid of this book but then I started reading it and as I do with every book I start I had to finish it. It wasn't worth the read not even close but you have to read the bad books to read the good books. Paula Danziger Set in sixth grade a hilarious story of the class clown and his school and family life, Likely because at the time it was one of the few books I actually owned and I read alot so my infrequent library runs didn't keep me well stocked: Feels dated -- especially the computer processing Paula Danziger These books were really funny: The fact that they were about a guy didn't hinder the relatability at all. I remember that Matthew seemed a lot more mature than I was at that age: Looking now at my cousin who's in sixth grade it doesn't seem possible[1]
