

More with You (With You, #2) By Kaylee Ryan **Starac i more pdf** They kept on dancing around each other and kept thinking to keep their distance to each other because they thought the other didn't feel the same and that they can't have each other. **More more more book** Possible Pet Peeves/Triggers: A lot of push and pull from both of them; OM drama.

OM kissing the h; long distance Kindle Edition While I did like this story and think that it was a sweet romance. **More with youxel job** there was a lot of:*Ignoring and dancing around their feelings*A lot of talk about how much they like each other but don't want to ruin what they have just in case their relationship went bad. **Do more with your dog novice trick list** This has been a quick fun series and I'm looking forward to book 3 with all 4 POVs even though they'll basically all be the same character style with slight dialogue differences i. **Sesame street no more diapers book** I mean grow a backbone woman the guy judged you and you're the one asking forgiveness? whats up with that?Relationships bullcrap they kept on dancing around each other one step forward two steps back! Especially Aiden one moment he stirs away from her and then the next sweet and cuddly! damn he's so confusing Dialogue tons of fluffy dialogues you can count on that. **Book more with less** He appreciates Hailey's body he just doesn't want others to appreciate it as well no scratch that; she had on over her scraps of material she is trying to pass off as a suit. **More with youversion** It was something familiar but can still bring some giddiness over some romantic scenes and can still bring anticipation over things that you might have some idea on but with the way the story goes one can never be so sure. **More with youmusic** Liam and Allison had already their HEA and it was time for them to get theirs too but the problem is: he's her best friend's little sister and he doesn't want their little group to be broken once things didn't work out with the both of them. **Codependent no more book** Can he watch her be with other men? Or can he man up and tell her his feelings?Now with all the wedding plans and series of events that is bringing them close together will both of them be strong enough to battle their feelings for each other? He could have just risk his balls I mean if you really want something if you really WANT it THAT BAD you will cross mountains swim rivers and catch some stars. **More with youwave** :D See?! He trusts her with him!!!!Just as when everything was about to be perfect because finally Aiden took the steps forward something happened (out of context) that brought a huge wall between these two. **More with youwave** Will it be too late before they realize they have to fight for it?To be honest lots of dilly-dallying and moments where there were progress made between the two only to digress the next second. **More with you erin spencer** IF YOU CAN HANDLE THAT then by all means go for this book!! I'm not at all saying that it's a bad read (because it's not) but I honestly think that readers will need a lot of patience to get through this since I didn't. **More with youxel job** * I'm now hoping for maybe a Macie and Jaden story or a Miles and (??) story!! Who are these characters you want to know? Well you just got to read and find out! ;) Kindle Edition 3. **More than words book** but I was like come on already! :) Kindle Edition I waited to post this because I wanted it to go live #2)

I didn't like that the push and pull happened from start to almost the end, **No more mr nice guy book** They only got together a few chapters before the story ended. **Book more with less** He can't even fight for her when he thought she's with another guy, **More with us everyday jobs scholarship** I kept on waiting when he's going to make a move and I had to wait long. **Book more with less SAFETY:Age: Aiden-21 and Hailey-19 Cheating: None Love Triangle: None. Be more chill book** She's not interested and the guy didn't pursue her or anything. **No more mr nice guy book** They danced a couple of times and it's too many for me, **More with youxel job** Also He tried to help her by making Aiden jealous and realize she's what he wanted: **No more mr nice guy book** I can handle his hugs and his arm around her and him moving closer to her when he saw Aiden looking but kissing her on the lips was too much. **Book more with less** I know it's to cause drama and I already knew he's going to do that but I still hate that he did that: **No more mr nice guy book** She pushed him away but it's not fast enough because Aiden said she's just standing there not doing something to stop the guy: **Book more with less** Sex scene with OW/OM: None Abuse: None Push and Pull: A lot of push and pull from both of them: **More with youmusic** They only got together a few chapters before the story ended and it was the only time they stopped pushing each other away: **More more more book** Separation: 3-week separation when Aiden moved to Charlotte with Liam and Allison (not yet a couple): **Sesame street no more diapers book** Then they will be in a long distance relationship for a year because she has to finish college first: **Get more traffic for your ebook** It was mentioned she kissed guys and there has been some touching (groping under the shirt), **Book more with less** She danced with other guy a couple times (Same as OM drama), **More with us spring 2024 scholarship** He treated her like his sister but there were times they sexy danced and one time she pushed against him and he was affected by it. **Codependent no more book** There were also A LOT of times were I got so bored and frustrated with the hot and cold vibes as well as excuses and repetitions throughout the story. **More more more book** I literally wanted to yell for them to get it on already! since it was SO OBVIOUS how attracted they were to one another. **More with youwave** *And once again.

And now that it has I can post my review. **More with youwave** MORE WITH YOU by KAYLEE RYAN is AMAZING!!!! I loved Aiden and Hailey's story, **More than words book** It started out a little slow at first but then it picked up and I could not put it down. **Book more with less** I knew going in that this was going to be one of the hiding of their feelings cuz that is just what Aiden and Hailey did in Anywhere With You, **Codependent no more book** Kaylee wrote this in a way that you got to see how each one was struggling with their feelings, **More contemporary crossword** Im so glad that they finally got together and got their HEA!!!! I would so totally recommend this book to all of my friends that read: **More with youxel job** Hopefully with a novella of Liam and Allie having a baby or Aiden and Haileys wedding or maybe Macie and Kayden or Miles might just get their own story, **Your more than a number in my little red book** Whatever is to come Lets just say Im excited!!!!!!!! Kindle Edition Hailey MacCoy has had a crush on Aiden since the day she met him, **Your dollar store with more locations** Hailey feels she has to keep her feelings hidden due to his friendship with her brother, **More with youwave** She struggles with the fact that Aiden only sees her as his best friends little sister. **More with you erin spencer** Aiden Emerson is lusting after his

best friends little sister, **More with youooo** Hailey is all of a sudden grown up and Aiden can't stop thinking about her, **Codependent no more book** She has become an important part of his life over the last year: **Book more with less** The thought of losing her is just not an option for him, **Sesame street no more diapers book** They find themselves thrown together and surrounded by wedding planning and events. **More with youxel job** Filling the roles of Maid of Honor and Best Man for their siblings. **No more mr nice guy book** Can Aiden and Hailey resist temptation? Can they open their hearts for more? More with You (With You).

More with youwave

Edit: This has been bugging me. **Your more than a number in my little red book** In the book they mention how Avril Lavigne's new song 'Rock n Roll' is the girls' new favorite song. **Your more than a number in my little red book** Then a while later they mention that the love the line I'm the motherf**king princess. **Book more with less** Now I'm a fan of her earlier CDs and I know the line but don't think I ever heard that song, **More with youwager login** My mind automatically went to 'Girlfriend' so this morning I looked through Avril songs and sure enough that song is 'Girlfriend', **More with youwave** REALLY?! You can't even get the name of the song correct? Don't pull lyrics then the song would have been enough OR just say they like that one song with this lyric, **More than words book** *sigh*I feel like I should just copy and paste my review for the first book here since that seems to be hoe the author created a handful of these scenes. **More with youwave** some even seem word for word but I'm too lazy and don't care enough to look back through both ebooks to check: **More with you or with you more** That being said I also enjoyed this one it even had drama that the first was lacking, **Book more with less** Kindle Edition Cover sweet and cute 7/10 but the summary is a little off: **More with youoy** Opening It was okay I guess It didn't bore me much unlike the first book. **Your dollar store with more** Hero ah Aiden okay this guys is hilarious as hell I actually like him but towards the end he seemed so childish and immature, **More with youqi** I had no problems with Hailey whatsoever but it seems to me she's a little do desperate. **Sesame street no more diapers book** There wasn't much of confrontations on this book but tons of self reflections by the hero. **Book more with less** Ending I hate it actually It seems to me that Aiden didn't do anything but ponder to himself while Hailey does all the chasing and apologizing: **Your more than a number in my little red book** Setting Allison Liam and Aiden had to move for college which I thing is great for this story because Hailey was given a chance to meet new people. **Book more with less** I wanted Aiden and Hailey to end up together and I got my wish: **Santa montefiore kindle books** but other than that I don't have any reason to read this again. **More than words book** nope no recommendation except don't mind me I'm just being a judgmental bitch again. **Be more chill book** Kindle Edition I knew I'd love this book because well I loved the other one: **Your more than a number in my little red book** There were times I wanted to strangle the characters and just scream 'GET FREAKY ALREADY!' but good things come to those who wait I suppose: **No more mr nice guy book** Regardless of how often it always had the same effect one me. **More with youvisit** Aiden knows not to talk about certain things not going there man: **More with youwave** I know better than to let Allison or Hailey either one hear me talking about their 's**': **More with youversion** Aiden he likes to be close to his girl I feel his breath hot on my ear: **More with youwave** Now stay still so I can get myself under control before your brother kicks my a** he roughly whispers, **More with youxel job** Holy effing sh**! Hailey is wearing a barely there blue bikini: **Your more than a number in my little red book** NEVER touch what is his who the eff does he think he is? Touching what's mine! I step up close to Hales: **More with youooo** I would appreciate it if you would remove your hands from my girl I say through gritted teeth. **Book more with less** The guy must hear my anger and know I'm not messing around because he drops his arm. **Bookkeeping and more** I immediately pull Hailey's back against my chest and wrap my arms around her waist: **More with youwave** Hailey and Aiden sure know how to shock people she pulls

open the door and Allison's mouth drops open. **Book more with less** She looks over Hailey's shoulder ad spots me sitting up in bed: **More more more book** 5 StarsSome plots just never get old - just like More With You. **More with you erin spencer** Aiden and Hailey - FINALLY!!!!Since the end of the first book I was already rooting for these two, **More with you erin spencer** So they try to keep their feelings checked afraid that one slip of emotion can cause major devastation not just to Liam but to the whole group: **More with youxel job** But he needs to decide now whether he wants her or not - Hailey is not a little girl anymore and she's starting to draw attention from the opposite sex. **Book more with less** So it wouldn't really matter if her older brother is your best friend. **Your more than a number in my little red book** Everyone can see they are INTO each other but none of them was sure about it none of them would take risks, **More with you or with you more** Their friendship means so much more which I clearly understand: **More with youversion bible** They needed to be sure with their emotions of if they're each other's "THE ONE" before clearly taking a leap. **Book more with less** Good thing people around them had more insight and was happy share it with them: **Your more than a number in my little red book** I love seeing Liam and Allison living their HEA and still head-over-hills in love with each other: **Do more with your dog titles** Although Liam was quite busy with his new girl he would still made sure that Hailey was well-taken care of by... Aiden: **More with youour** I WAS NEARING my HEA - what in the world happened? I always appreciate a friend's help but not at the expense of something that can hurt another person: **More with you or with you more** It took some groveling and a lot of heartaches before everything went back to normal again, **More with youxel job** Honesty trust and taking risks - they can be just simple terms but it can make or break a relationship, **More with you erin spencer** Both Aiden and Hailey needed to be honest with their feelings and with each other and trust their emotions enough to take the risk: **Your more than a number in my little red book** I think I love this more than the first one I enjoyed reading the story and watch both Aiden and Hailey in their journey to their own HEA. **Book more with less** It was sweet not that long the steamy scene - it was worth the wait, **More with youmail** ☐ Kindle Edition Loved it once again kaylee Ryan wrote another badass book! Kindle Edition Cutest book ever, **Book more with less** Definitely no regrets reading this one :)Perfect teen YA/NA read, **More with youqiang huang** This author is great for fans of those genres :) Kindle Edition 3: **Santa montefiore kindle books** But I have to say I loved the first book a lot more than this one: **More with youwave** That the guy will do that but it still pissed me off when that time came. **More with youxel job** He's Allison and Liam's (book 1 H and h) best friend and Liam's roommate. **More with youwu666** She's Liam's younger sister and Allison's roommate in book 1: **No more mr nice guy book** Aiden and Liam are going to the same team North Carolina Panthers: **More with youoyu** He's the running back and they are moving to Charlotte with Allison and she'll be left alone, **Book more with less** It won't be long before they move there but these two keep pushing each other away, **More with youxel job** They're too afraid to say something because they don't want to lose each other. **Book more with less** So over all a decent and cutesy read but kind of dragged and made me want to at times strangle Aiden and Hailey at the same time, **More with youoyu** But then again on a positive note I'm also glad to have FINALLY seen their relationship play out so in that sense I'm placated, **More with youology** -*I know I'm kind of a walking talking contradiction in itself. **More with youve got** With nearly fifty romance books under her belt she's known for penning happily ever afters with heart: **No more mr nice guy book** When shes not writing you can find her with a book in her hand or hanging out with her family where she resides in her home state of Ohio, **More with youwave** With nearly fifty romance books under her belt she's known for penning happily ever afters with heart, **More with youversion** When she's not writing you can find her with a book in her hand or hanging out with her family where she resides in her home state of Ohio: **Book more with less** WAYS TO STAY CONNECTEDReader Group: {site_link} Page: {site_link} : {site_link} : {site_link} : {site_link} : {site_link} {site_link}.

. What I really enjoyed here was Liam and Allison. They're still so cute together. There's no epilogue. Liam and Allison's wedding day and Aiden proposed to her. They're now engaged. But he thought

she's with someone. OW/OM drama: She met a guy. He's her new friend's twin. They even sexy danced. But his help went too far. Virgin/Celibate/Manwhore: She's a virgin. He's celibate for over a year. Nothing was mentioned about his past sex life. Condoms: They used a condom. I assumed he used condoms before. *sighs* SO BASICALLY.*A hell of A LOT of sexual frustration. I felt from them both. Kaylee did an OUTSTANDING JOB writing this series. I cant not wait for more from Mrs. Ryan. Over time that crush has intensified. Hailey and Aiden are battling their hearts desire. Fighting against what they think they can't have. Okay fine.e. angel vs beautiful girl. particularly the 3rd paragraph. Heroine the little sister. Hailey.The plot cliché best friend's little sister. brother's best friend choose your pick. Scene my favorite would be the texts and phone calls. You have to read to find out why.Pace a bit slow but nevertheless good. Enjoyment I did enjoy this but not much. Recommendations umm. And well Aiden is well he's hot! this him shirtless. Aiden has a true runner's body. Lean. Fit Ripped. I enjoy the meals they make us. I'm keeping my trap shut. Did he just growl? Yes angel you did that. I kiss her temple. She's safe. She takes Hailey in and what she's wearing. Sans shirt. I smile and wave. I'd wave to Aiden you just got laid man. Kindle Edition Review Originally Posted at: Book FreakRating: 4. First there were so much pushing away in this book. Then the OM drama. It's not exactly because the guy wanted her. It's how he helped her and went too far. I already knew it will end that way.The story is about Aiden and Hailey.These four are a tight group. They always spend time together. I get that A LOT.75 stars. sweet and simple. loved both h and H
