

Book the wedding date

This is my least favorite part of the books I have read of Cara Connelly And it is still one of my top favorite books this month That is saying something SPOILER One thing I have learned is that angry sex can be really hot to read about And maybe even try I can't wait to read the next book in this series Cara Connelly I will be writing a review soon But let me leave you with this I loved it Enough said Cara Connelly Absolutely fabulous Hilarious sweet hot The only thing that could have made it better was an epilogue Cara Connelly I won this book for a honest review from Goodreads giveaways I very much enjoyed this book What do you get from a famous movie star with a big heart for animals and his family and a woman who has famous singer in a band and mother who is a world class news reporter You do the singing thing with your dad but then decide to do the reporting thing to impress your mom even though she won't realize it due to her having Alzheimers She get pressured to sing with your dad's bad so go undercover to report on a famous wedding that no reporters is allowed to be at You see him and fall for him bad but don't think anything of him because he is rich and famous You have to get out of town to avoid a reuest for court and end up on his island He doesn't know you are a reporter and things go really bad while you are there but you both have fallen in love with each other You uit your job to make amends and try to figure out what you want and he has to realize he really does love you Cara Connelly 45 stars for Kota and ChrisDakota the first thing that came into my mind when I hear the name was that this was the girl character of the book I was uite reluctant to accepted it for the male character But somehow while reading the book the name grew on me and also the nickname KotaThere's a lot of book about celebrities being normal human beings but this one catches perfectly what that phrase means Kota was a sensitive and sensible man underneath all the fame and like I'm sure many if not all of the Hollywood stars he had a lonely life and hurting heartI was afraid from the beginning because I knew the imminent deception was coming and his heart was going to be brokenBut is safe to say that even if Chris was a coward for not coming clean to him sooner she respected him and didn't sell him out so I liked her for thatAnd the hot and sold scenes help built the tension for the characters and us readersSo great job Cara Cara Connelly CaraConnellycomFollow her on Facebook atFans of Rachel Gibson and Jennifer Ryan can rejoice in Cara Connelly's Save the Date seriesIt's the most secretive celebrity wedding of the year and Christine Case is going to be thereNo nonsense journalist Christine Case still believes a newspaper should inform not entertain But when Chris's biggest story blows up in her face she's out of a job unless she does the one thing she's sworn never to do—infiltrate a celebrity wedding and write an exposé on the happy coupleA list heartthrob Dakota Rain loathes the press So when he hosts his eually famous brother's wedding at his Beverly Hills estate keeping the vultures at bay is Dakota's top priority—until he meets the sultry singer in the wedding bandPosing as a singer is no problem for Chris but when Dakota talks her into a private island getaway the hot days—and sizzling nights—make it impossible to go on deceiving him But what will happen when the media hating movie star discovers the woman he's falling for is really an

undercover reporter? The Wedding Band Christine Case has lived a varied life she is the daughter of a famous musician and a famous heroic war correspondent As such she has been blessed with both an incredible voice and an incredible drive to report the news Due to a communication error her last story has ended in scandal and a lawsuit In order to save her career she has been instructed to get in to the largest celebrity wedding of the year and report on all of the events Dakota Rain is the brother of the celebrity that is getting married and has in intense hatred of the press He is also a A list celebrity in his own right After hearing Christy's incredible voice at the wedding when she sang with her father little does he realize her real occupation as a journalist Dakota had planned to tag along on his baby brothers honeymoon to his private island and he convinces Christy to go with him Will he be able to see past his bias on her profession and listen to his heart? The Wedding Band is a lite fun read that will make you smile and your heart melt I adore Dakota's many faceted character his love and rescue of animals melted my heart I love how Christy finally seems to find herself and be comfortable in her own birthright instead of trying to follow in her parents footsteps Ms Connelly's writing is so effortless and flow so incredibly well that you will look up from reading and realize that you have devoured half of the book but never felt the passage of time I highly recommend The Wedding Band for anyone looking for a wonderful lite fun read Cara Connelly 325 stars This one had an iffy start with an over sexed hero constantly thinking of sex and trying to get the heroine in bed but it picked up later for me We have a heroine who gate crashes hero's bro's wedding under false pretenses and then to escape a subpoena goes with him to a private island Her scruples try and stop her from sleeping with the hero but she keeps getting in deeper seeing beneath the surface he presents to the world his love for family animals etc Of course the truth has a habit of blowing up and the hero reacts badly given his history with the press The hero of course tries to pretend he didn't fall for her even trying to sleep with a starlet but he can't keep away Not too bad Cara Connelly Reviewed for herding cats burning soup posting to blog 51418 Wedding Band and I did not get along The Gist Dakota's brother is getting married and it's his mission to keep all reporters out of the celebrity wedding He's not fond of reporters At All Christine though plans to sneak into the wedding with her dad's band in order to get the gossip and spread it all over the gossip rags That's the plan So the Good Dakota is a pretty great hero for most of the book He has a way with animals and over the years has collected everything from 3 legged dogs to wild horses when they were in need and no one would care for them It was sweet and heart touching I loved watching him with the animals He's a good guy overall too Loves his family and friends talented has that whole sexy actor thing going for him I also liked Dakota and his brother together There's a strong bond and it was nice to see And that was about it Then there was everything else Yall this heroine I believe my exact words were oh damn me Another fucking reporter heroine They are the absolute fucking worst And yall she proved that to be a solid stance Christine was horrid She's whiny deceitful obnoxious She was constantly going on about how stupid he was How he couldn't have a brain cell in his head because he made action movies I mean That was her only reasoning He's GOOD at action movies and makes millions but really he must only do it because he's too dumb to do anything else She complains about him manipulating her into staying for dinner one night when the heifer spent 75% of the book pretending to be someone else and hiding the fact she snuck into his celebrity brothers wedding and honeymoon in order to splash their personal family life all over the newspapers And the sex was weird She kept putting him off and then when she finally decided to have sex with him it was only because they'd stumbled onto his brother and new sister in law having sex on the beach and it turned her on So she had him fuck her against a tree so she could WATCH the brother while they went at it It was just out of place and awkward and in no way hot In the gross department there was a scene later on that had me going Nope Nope Nooope No Nope Nuhuh Nope Sometimes you just don't need a visual Hero having to unstick his dick from his leg because he zipped up and left without cleaning up? Yeah Nope Her reasoning was moronic too Her mom was a world renowned journalist and she wanted to be a real reporter like her mom and make her proud And somehow sleazy tabloid reporting is gonna do that? And then when the hero found out he was rightfully pissed but did some way out of character things It didn't feel natural at all to who he was

portrayed to be the majority of the book All in all a hot mess I've enjoyed Connelly in the past but The Wedding Band was such a miss The 2 stars were entirely for the hero and the animals Cara Connelly Whew The Wedding Band is a wild ride romp of a romance and I loved every tense sexy second Dakota Rain is charming maddening and sexy as hell You want to hug him one moment and strangle him the next Just the kind of hero I adore And Christy Gray is a heroine who makes you hold your breath because you know she's treading into dangerous waters and heartbreak has her name written all over it With each new book Cara Connelly continues to rise to the top of my favorite authors I absolutely can't wait for the next adventure Cara Connelly Since the day I read The Wedding Favor I've been Cara Connelly's #1 fan and I am thrilled to announce she's hit another one out of the park This author never struggles presenting us with characters that are so well developed and described I feel like I know them very personally by the end of the story and always hope to get another glimpse of them in her next book Her storylines have real direction and never give me frustration with clumsy meandering and sidetracking She is a master of sexy banter and hilarious human fumbles and family connections that are often humorous and sometimes painful In The Wedding Band we get to meet Hollywood's male superstar of action films Dakota Rain think Chris Hemsworth ladies His brother Montana Rain also a Hollywood star is getting married and the challenge is keeping the paparazzi out So what happens when a gorgeous female reporter sneaks in as part of the band? A lot So to find out if a deceitful reporter and a savvy womanizing superstar surrounded by security and protective friends and family can explode into spontaneous combustion or if two people who are done with each other can share custody of a three legged dog named Tripod you just have to read the book and I 100% recommend it Cara Connelly.
