

Silently Falling By EverlarkCatoniss **Silently fallingsnow1968** und ich glaube auch ich habe mich ein bisschen in West Love verliebt<3 Silently Falling this book is sooooo gooddd!!i have already read many books in wamppad to find the best romance book to read and finally i found you;*it has a unique character Raine Winter (what a good name) becomes mute because of her being raped in her 9th grade. **Silently fallings heath** I definitely recommend this book to anyone who loves development and a great original story! Silently Falling 3 1/2 Silently Falling *Completed as of September 6 2016**Highest Ranking: #1 in Teen Fiction :)* Sunshine what guy do you know has a weird fetish with sign language? She's the aftermath of a high school party nightmare. **Silently Falling ebook** An essay is what brings them together but what happens when he starts asking too many questions? Will her past continue to drag her down or will he save her? Fate has a funny way of bringing people together but it doesn't always work how it's supposed to. **Silently Falling epub** The h is fucking RAPED and loses her voice for half of the book and what I see? She fucking hands over her baby to her rapist in the end and forgive him? Like seriously?Is the author encouraging rape by giving out that it is okay to forgive the rapist once he realizes his mistake and can just go on with day to day life as if nothing happened!! I was so fucking pissed when I read this book just ruined my entire day. **Silently fallingtree 1.12.2** And the authors writing style don't even let me get starting with that!!The female is atleast at seven to eight different places in a single chapter and is always right!! Her friends are right her brother is right her ex boyfriend is right oh yes and even her rapist is right in her eyes because he regrets it!!Oh did I forget to mention that once the Male lead comes the rapist tries to rape the h for second time too and guess what she just tells the male lead not to do anything why? Because she was scared to do anything because according to her she doesn't have enough proof to prove she is right!!The male lead was okayish not a player or a manwhore technically he was the only decent person in the book. **Kindle Silently fallingwater** Whereas the h was all rounder was good in studies plays great piano is freaking rich have an ex boyfriend that still is attracted to her have a rapist who wanders around her as if nothing happened has a lover from her friend circle but doesn't tell her and then the male lead. **Silently Falling kindle app** yes rape is a heinous act and it's something that is uncomfortable to talk about or even think about but it allows readers who might have been in this situation themselves to see that they are not alone and hopefully gives them the hope that their lives will start to become better as well. **EPub Silently falling skies** I ABSOLUTELY LOVE the MC's character development! The MC at the very end of the novel finds the strength to confront her attacker to call him out on what he had done to her. **Silently Falling ebookers** Even though it ends with us not knowing where that particular matter ends it leads us to believe that it will be brought up to the courts again (because he does unfortunately attack her for a second time), -AKRathan I just want to say that Silently Falling was one of the best books I've ever read: **Silently Falling bookworm** It's so beautiful and heartwarming and the way you described the progress of their relationship was beautiful. **EPub Silently fallingwater** - TaylorxTaterxTot Silently Fallingnot bad but it needs some editing Silently Falling I personally loved this story: **Silently Falling booker** It is deep and emotional; and made me want to cry at some parts but also made me laugh, **Book Silently falling** I would recommend this book to anyone who has good taste in books and loves romance and trauma genre, **Silently Falling booklet** Not saying that I love trauma.
