

Passionate Realities By Nicole Austin **Book Passionate realities perfume** The two areas that it helps to move the story along is allows the main female character Cassandra McCarhty to explore her sexuality with toys and allows her to be available for her daughter. **Passionate Realities ebooks online** And if she is so important to Cass as we are lead to believe then why does the author not provide any intaction between them until chapter 3? And her answer on page 28 as to why Sam should not want a little sister does not endear me to Cass. **Passionate Realities kindle** Aiden and Travis have no intimate connection until their threesome with Cass and then it's just sort of Cass putting them into positions where they're touching and eventually both are like what the hell? why not? and getting more involved. **Passionate Realities ebooks online** WARNING this book contains: explicit sex and language oral sex (m/f m/m m/f/m) anal sex (m/f m/m m/f/m) lots of use of toys solo masturbation scenes spanking light bondage food play under-the-table restaurant play and a bi-menage HEA ending. How did Cass start working on cars? Who showed her? She was raised by her grandmother. **Book Passionate realities perfume** And who are Jared and Jessica who are also present at the wedding? Both Aiden and Travis have brown eyes, **Book Passionate realities perfume** Why did they turn tawny? I've had brown eyes my whole life and they've yet to turn tawny: **Passionate Realities bookworm** What happened with Travis' job? Does he still work with the same company? It was such a pivotal point in the plot and no update on it. **Passionate Realities pdf editor** I will say that I'm glad I'm a member of book sharing site and was able to get it that way not spend more than the shipping cost for it: **EPub Passionate realities meaning** Cass dancing for both of her men gave me courage to dance for one: **Passionate Realities ebooks online** Liked the line on page 155.

Of course!Review:I picked this story to read because I was in the mood for another bi-menage HEA story. **Passionate Realities pdf editor** They're all pretty likable and there's great chemistry between them: **Passionate Realities bookworm** The romance starts off between just Cass and Aiden and they really set the sheets on fire, **Passionate Realities bookworm** But this is where the story started to lose me a little. **Book Passionate realities definition** The ending of the book is technically a bi-menage HEA.

Well here are my reasons why, **Book Passionate realities perfume** I really don't like the main character as a writer especially a romance writer: **EBook Passionate realities** And yes I know there are authors who have done this well: **Book Passionate realities perfume** I would have to say that Rachel Gibson did it well in True Confessions, **Book Passionate realities meaning** And I'm sure you're thinking of at least a half dozen other authors who have done the-character-as-writer well, **Book Passionate realities perfume** Sam spends more time with Darlene Cass's publisher than with Cass. **Book Passionate realities perfume** With that being said do we need 5 chapters on the first coupling? Yes 5 chapters: **Book Passionate realities perfume** All these chapters dedicated to sex take away from the story: **Book Passionate realities cologne** The story seems to support the sex and not the other way around. **EPub Passionate realities meaning** Due to the space given to the sex we don't get to see how Cass starts to fall for Travis before Aiden leaves her when Bryce comes back. **Passionate Realities book** Early in the book Cass knows she has feeling for Traivs but I've yet to see how these feelings come about: **Book Passionate realities perfume** The reader does get to see how the love develops between Cass and Aiden: **Book Passionate realities synonym** But not having this same space with Cass and Travis and the author asks the reader to accept the love between them The happy trail: **Passionate Realities bookworm** More than anything she wanted go to Travis stip off his clothes trip him and then beat him to the floor. **Book Passionate realities definition** Nicole Austin it's hot hot hot story the heroine is not a selfish b*tch like some heroine in other novels with the same category. **Passionate Realities pdf editor** she is stronghonestinsecure but also stubborn independent and wanton sex goddess Nicole Austin Ummmm well it was better than your average erotica but not great. **Book Passionate realities definition** Also the lead is suddenly in love with two guys but only one of those storylines is developed: **Passionate Realities bookworm** There should have been some lead-in to her falling for bachelor number 2, **Passionate Realities bookworm** I gave this 3 stars because the story flowed and becuase it is nice to see some solid polyandry not just a wild night or a wild week but a long term relationship, **Book Passionate realities perfume** Nicole Austin **Passionate Realities** is Nicole Austin's really hot menage story about a woman who's afraid to love and two men who have waited long enough for her to heal. **Passionate Realities booking** It's a bit different in that the menage isn't a 'from the start' thing, **Book Passionate realities perfume** First she sleeps with one

and then realizes her love for both, **Passionate Realities booking** I think this is a much more likely (HAH) scenario than most menage relationship books I read, **Book Passionate realities perfume** But of course that's just me! Cassandra has managed to make a life for herself after two huge relationship mistakes. **Book Passionate realities perfume** But since the first 'mistake' resulted in her daughter she can't really regret that one, **EBook Passionate realities** Although Aiden hasn't really tried to hide his attraction to her Cassandra isn't sure she's willing to risk their friendship: **Book Passionate realities perfume** not to mention the fact that she's also seriously attracted to Aiden's lookalike buddy Travis. **EBook Passionate realities** Aiden knew he would have to have Cass from the moment they met. **Passionate Realities pdf editor** He also knew that she would need time and healing before he could approach her: **Book Passionate realities perfume** and both he and Travis have no intentions of letting her go to any other man, **Book Passionate realities definition** Austin's characters have passions and problems and there's no 'magic bullet' to miraculously solve either one, **Book Passionate realities perfume** Instead they have to work things out with some steps forward and some back, **Book Passionate realities meaning** Nicole Austin Not quite what I was expecting or quite what I wanted. **Passionate Realities kindle** Not a bad book though I just wanted something a little different. **Book Passionate realities perfume** Summary: Cassandra McCarthy has been abandoned by just about everyone in her life. **Book Passionate realities definition** Her parents ditched her her first real boyfriend got her pregnant then her new husband turned out to be emotionally abusive and then he was killed in an accident: **EPub Passionate realities meaning** But with her brother-in-law Aiden in her life that's easier said than done, **Book Passionate realities perfume** Aiden has waited long enough for Cass to heal from the wounds of her life. **Book Passionate realities perfume** She resists at first but the sexual lust between them gets the better of them: **Book Passionate realities perfume** Things are good in bed but Cass is still afraid to commit and Aiden is afraid to lose her, **Book Passionate realities perfume** What's a girl to do when there are two men in her life that she desperately wants? Have them both but it doesn't feel that way: **Book Passionate realities perfume** There's no sexual intimacy or attraction between these two until that time, **Book Passionate realities perfume** And when they do finally hook up that way it feels most like it's just them being sexually uninhibited instead of having those kind of feelings for each other: **Passionate Realities pdf editor** I want all the characters to care for each other and want each other sexually. **Book Passionate realities perfume** I was also confused on Cass's reasons throughout the book for pushing Aiden away. **Passionate Realities kindle** It seemed like half the time she was saying she was afraid she'd hurt him then it was she was afraid he'd abandon her. **Book Passionate realities perfume** Cass was too up and down feeling one thing one minute and then something different the next, **Book Passionate realities perfume** I think about a quarter of the words could have been chopped out of the book as being totally superfluous: **Passionate Realities ebooks online** I got used to it as a read but in the beginning it drove me nuts. **Book Passionate realities perfume** I've read a lot better and I've also read a lot worse[1]

Is asking a lot of sophisticated readers of romance. I had a few questions. Did I like the book? Yes. I enjoyed the sex scenes. They were hot. And this one delivered on that sort of. It wasn't an entirely satisfying story though. It was missing something. I liked all three characters in the book. But there's also chemistry between Cass and Travis. So one night they end up in a threesome. Which is hot. Aiden has wanted Cass from the first moment they met. That is about to change. But the guys have worked up a plan of their own. Double the pleasure double the passion and triple the fun. Note: This book contains graphic male/male sexual interaction. And if possible I would give this book 2. This does not make the author research another profession. A cheat in my opinion. But it was not done well here. Ah yes her daughter Sam. Yet another disappointment. Another disappointment was the sex. Now don't get me wrong it was hot and well written. The first coupling between all three lasts 3 chapters. It is too much. This is perhaps my biggest disappointment. The story would not stand without the sex. Someone sign me up for the next trip. Also like the line on page 170. And the

masturbation scene that follows is very sexy. I liked the story but the writing was pretty darn bad. I know others don't mind that but I can't stand it. And the second enabled her to meet Aiden, her dead husband's brother. But now it appears she's thinking about a relationship. Smoking sex with emotional overtones. I enjoyed this much more than I anticipated. That's always a good thing, just like the rest of us. Series Note: No series connections that I know of. Cass decides it's not worth getting close to anyone. She has her daughter and that's all she needs. Cass wants Aiden but doesn't want to lose his friendship. He finally pushes her for a real relationship. And Cass has a secret. She also has feelings for Aiden's best friend Travis. That's not what I want out of a bi-menage HEA story. So that part of the story wasn't satisfying. I was disappointed with it. I was confused. It was annoying. But hey the sex was hot! That's a definite plus. And on a writing standpoint, the writer had a serious overkill on the use of adjectives. Anyway this was a slightly above average romantic romance. Nicole Austin.
