

Dangerous Boys and Their Toy By Shayla Black What's her connection to the missing witness? Mistress? Or something else? Could she know where he's disappeared to?The unbelievable/ludicrous part? The detective and the bounty hunter make a deal with the sexy woman (Brenna) and practically guarantee that they will give her something she hasn't been able to achieve on her own or with someone else for all her 26 years--an orgasm. But she has to then tell them all she knows about their missing witness.

I originally read this book in 2015 when it was titled Dangerous Boys and Their Toy and really enjoyed it it has been renamed and has a new cover but the content is the same. Things heat up between the two men and Brenna but not only that the men find themselves attracted to one another when they hadn't been attracted to men before this makes for all kinds of fun between the three of them. Happy Reading!!! Dangerous Boys and Their Toy Quick review:Cover: Says it all Rating: NC-17Steaminess: Scorching Thumbs Up: 4Overall: A quick fun readCharacters: SolidPlot: A cop and a bounty hunter looking for a suspectPage Turner: Yes Series Cont. More often than not when I'm reading an ebook on my (desktop) computer I go it rather leisurely; reading a chapter or two at a time and coming back to it whenever I feel like it. The story starts out with a good-guy cop Cameron and a cold-hearted love-em & leave-em bounty hunter Thorn who are staking out a house hoping to catch a key witness to an upcoming trial who has disappeared. WARNING this book contains: explicit sex and explicit language a bisexual m/f/m ménage (ie m/m sex) oral sex anal sex and a little voyeurism Dangerous Boys and Their Toy 4 ½ stars - Romantic Suspense/Erotica/MénageOkay this book might require some serious suspension of disbelief since it all takes place in less than 48 hours but it's 'turn down the A/C' hot and has Shayla Black's awesome wickedly erotic writing. While staking out the house of their absent suspect/star witness Curtis Lawton they encounter a beautiful woman staying there and assume she's his latest mistress but they are both inexplicably drawn to her. Brenna's true identity is revealed and shakes things up and Cam and Thorn find themselves having to keep her safe from the mob boss's goons who are also trying to find and silence Lawton. Of course it doesn't take long for deeper feelings to emerge between the trio which enhances caring insightful Cam's fierce protectiveness and longing for commitment exposes cold love'em-and-leave'em tough guy Thorn's vulnerable soft side and forces Brenna to face her fear of abandonment. Can the threesome open their hearts to each other and evolve their wild sexual escapades into something lasting and permanent? Even though the premise is a bit unrealistic and the story is a tad too short it's still a verrry steamy erotic read that's worth the time especially if you are a fan of Shayla Black's other books and like m/f/m ménage that also includes some smokin' hot m/m action as well. almost 5 stars! Dangerous Boys and Their Toy Hot damn the title Dirty & Dangerous describes the dynamic between Thorn Cam and Brenna absolutely perfectly!While hunting for a missing witness Thorn and Cam can't resist the draw to Brenna. And now that Brenna has discovered everything she never knew was missing in her life cradled in the arms of Thorn and Cam (and between the sheets too) she's bound and determined to keep them too. \*\*fans self\*\* Man I love a sexy fun snarky surprising romantic suspense! Add in a ménage and I'm not putting the book down for anything or anyone! And that's just what happened as I couldn't flip the pages fast enough on my Kindle to make sure Brenna Thorn and Cam got their HEA. and she cant have an orgasm!! Needless to say when they question her its not long before hot menage ensues!!! The first menage scene in this book might be the hottest I have ever read. Underlying it all is a mystery about the missing witness that one of the hunks (alpha bounty hunter) is trying to find along with the other hunk (alpha but-in-touch-with-his-feelings cop)that needs him to testify against another criminal. Dangerous Boys and Their Toy Trading orgasms for information isn't their usual way of doing business but when a missing criminal-turned-star-witness and fifty grand are on the line bounty hunter R. But if you have the ability to suspend disbelief for a few hours and follow where the author is trying to lead you and you don't mind some really sexually charged smutastic scenes (one of which takes 30+ pages to unfold) that involve various combinations of m/f/m ménage then this book may be right up your alley and you can have some fun with it. Their first scene together where Cam and Thorn help Brenna

achieve the unachievable takes at least 30 pages and darn it was hot! There's a few more pretty detailed scenes included what starts out as incidental contact between Cam and a reluctant (I'm not gay!) Thorn and soon develops into let's see-where-this-takes-us. Could it mean that he's found something he wasn't aware that he's always needed? All this unfolds in a matter of 36 hours and takes a heck of a lot of suspension of disbelief to be on board with everything that happens at warp speed. If you want to write/read about three-way relationships you can't be homophobic - following the norm - and expecting those of the same sex not to interact with each other sexually. Dangerous Boys and Their Toy Trading orgasms for information isn't their usual way of doing business but when a missing criminal-turned-star-witness and fifty grand are on the line bounty hunter R. Cam and Thorn together more tightly than they ever imagined as the men protect -- and serve -- the beloved woman neither can live without: I would loved to have been a fly on the wall when Shayla Black was pitching the idea for this story to her publisher. Black took her idea and ran with it in this unbelievably spicy story. I don't believe in an orgasm deficiency because the cure has been out since the seventies: Ten minutes alone with that baby and you can kiss your deficiency good bye, They stake out the witness's remote house hoping to catch him there but instead find a beautiful sexy woman poolside who is trying (unsuccessfully) to pleasure herself, Thorn are both looking for Curtis who is a week away from testifying in a trial to put away a know slave trader: Cam and Thorn are surprised when they find the beautiful Brenna Sheridan poolside at Curtis' home pleasuring herself: Both men are attracted to her instantly and are not shy about it, This was a hot read that is easy to recommend to anyone over 18, ? Yes Recommend: YesBook Boyfriend: CamSUMMARY (55 words or less)A friend recommended this one and I have to say I enjoyed the read: If not for the insta love at the end I would have enjoyed more. I can appreciate it was a novella and needed to wrap up but I think it could have happened differently, For a full review and yummy pic see my blog post at:<http://mybookboyfriend>, 5 / 5This book has some wicked hot scenes! And a good/great storyline to go along with it. But this one had me wanting to keep coming back and I ended up reading most of the second half in one sitting, Cam and law enforcement need the man to help put his boss away and Thorn is out \$50000 bail money if the man is never found, The house they are staking out is one where their suspect typically takes his mistresses which is why they think the woman they see there is just another cheap woman. she's completely unable to orgasm whether alone or with a partner. Cam and Thorn make a deal with her - they'll help her orgasm if she'll give them information on the man they seek. But what starts out as a mutual beneficial relationship becomes much more when feelings get involved. Brenna is a spitfire with a bruised heart trying to get over the abandonment in her past: Cam is the nice guy alpha and Thorn is completely emotionally cut off a product of his bad childhood. In the beginning Thorn comes off as a total asshole but once you get to understand the character he really grows on you: Author Shayla Black really surprised me with Brenna's true identity. The plot wasn't the most complicated or maybe the most original but it worked for the story. I do with the book had been longer with some more development, Everything moves pretty quickly taking place over only a couple days, Which made the developing male/male aspect of the story a little too abrupt (even if some of those scenes were ridiculously hot), As good as the book was it just could have been even better with a little more length and development: If you don't mind that then you should consider giving this one a try, The simple plot involves sensitive good-guy dedicated Arizona detective Cameron Martinez and cold badass-with-attitude bounty hunter R. Thorn teaming up to capture the missing key witness in a mob kingpin's trial involving illegal immigrant smuggling and slavery: With only days left until the trial Cam and Thorn make a deal with Brenna Sheridan to exchange orgasms for information on Lawton's whereabouts: Brenna is sweet beautiful and they both want her and she feels an explosive attraction to the vastly different but equally sexy Cam and

Thorn: Brenna considers their crazy offer a unique once in a lifetime opportunity to overcome her sexual hang-up of not feeling safe or cherished enough to be able to reach orgasm: My only real complaint is the terrible cover with the bronze-skinned Fabio twins (not a fan of the long hair) and a woman who looks like she could be their sister, Because the mafioso who's not wanting to spend a minute in jail knows that to silence the witness he's set on using Brenna as a trap. ~ Missy 5 stars  
Dangerous Boys and Their Toy

All I can say is WOW! I think this has to be one of the hottest books I have ever read. I think this is my first Shayla Black novel and it was amazing! Now the story line is simple, Guy named Cam who is a cop is searching for a witness who has disappeared. Thorn is a bounty hunter who is also looking for the same witness who skipped bail: The two of them find Brenna staying at the witness' home: Dangerous Boys and Their Toy MmmmHmmm! What can I say? This book was right up my Purvetted Alley: Two gorgeous males with longer hair and beautiful bodies and one feisty female all having some open-minded sex, The woman was found at this guy's hideaway trying to get in touch with herself and inner issues, The sex is way hot but a bit slow in places for me (see the 4 stars), I tend to like it a bit faster but with this story and the personal issues it really did go at the pace that it needed to go, Thorn and Detective Cameron Martinez are prepared to put their bodies to the task and give gorgeous Brenna Sheridan everything she needs: An exchange they never anticipated becomes an experience none can forget -- or walk away from, Sexual hunger sizzles the threesome but the stakes and danger rise as a mafia bad-ass stalks Brenna, Soon their deal is no longer about information -- or sex: Emotions bind Brenna I don't know what to think after reading this book: I read this hoping my headache would go away trying not to laugh at the absurdity of it all and for the priceless reactions to the m/m moments. I was reading this on my computer and I spent most of the time banging my mouse around trying to get it to scroll, The dynamic of two strong alpha male men getting together was hot, I was a little surprised by who was on the receiving end but what do I know: This was like an awesomely bad porn movie that was so bad it was great, I spent a big portion of this story with my hand over my mouth in awe over the sexual shenanigans and trying to figure out the Twister formations, F/F doesn't seem to do it for me which is weird because normally I would say I would rather look at a naked woman than at a naked man. I guess I got a few more kinks left inside me waiting to be explored. So in that regard I tip my hat to Shayla Black for a job well done, :DNow that this story is over I have got to go see my husband about fixing my mouse, That's what all the banging and yelling was coming from inside my room, wickedly hot! It's definitely not for everyone--those looking for a whole lot of plot character development or deep meaning will probably scoff at this book. The funny part? The two male leads hunky Native American/Mexican sensitive guy police detective Cameron Martinez and gorgeous macho Viking-like bounty hunter/bail bondsman R, Thorn have some pretty funny dialogue where they gripe and fuss at each other like a couple of cranky old women. They're supposed to be hunting down a witness (who's on the lam) who has agreed to testify against his criminal boss: The sleazoid boss is involved with smuggling Mexicans across the border and selling them into slavery and will soon be standing trial. Cam is the detective who has been working on the case for years and with the trial starting in a few days he's desperate to locate his star witness: Thorn is the one who posted the witness's \$50 her connection to him and where they can find him. On this little sexual journey Thorn gets in touch with his true self and

learns what real intimacy means for the first time in his life. But I'm not complaining--this book was easy to read I didn't take it seriously and it definitely entertained, I wasn't looking for or expecting anything heavy or complicated and I got just what I thought I'd get--a sexy good time. Warning: This book contains explicit language and sex including oral and anal; m/f/m menage; m/m/f menage; scenes of self-pleasuring and scenes of m/m oral and anal sex: Definitely not for the faint of heart! Dangerous Boys and Their Toy Ah. See this book here addresses something I always wonder about, In these menage books with two men I notice the female is always used as a buffer in between the men. I get that at some points this makes sense (different positions and . objectives if you will); but for the books that end with a three-way HEA the relationship outside of the female-male relationships always seems lacking. From what I've read the norm seems to be that the woman loves each man separately each man loves her and they all love DP, But the relationship between the two men is never really given a second thought, This book develops a relationship there and it is believable (enough . This is a breath of fresh air to this type of genre and topic . finally a counter-culture menage book that fully disregards the norm in order to make sense within its own reality. Thorn and Detective Cameron Martinez are prepared to put their bodies to the task and give gorgeous Brenna Sheridan everything she needs: An exchange they never anticipated becomes an experience none can forget-or walk away from. Sexual hunger sizzles the threesome but the stakes and danger rise as a mafia bad-ass stalks Brenna: Emotions bind Brenna Cam and Thorn together more tightly than they ever imagined as the men protect-and serve-the beloved woman neither can live without, Dangerous Boys and Their ToyShayla Black is the New York Times and USA Today bestselling author of than ninety contemporary erotic paranormal and historical romances, Her books have sold millions of copies and been published in a dozen languages. 000 bond. Detective Cameron Martinez and Bounty hunter R.A.blogspot.com/2. Dangerous Boys and Their Toy Rating: 4. But both are drawn to her. Brenna is beautiful and enchanting. But she has a problem.Dangerous Boys and Their Toy is one smokin' hot book. The sex scenes leave you needing an ice cold shower. They're probably some of the hottest I've read. So for that alone this book gets top marks.But the storyline and the characters were engaging as well. You get a nice range of personalities in this story. And together they make quite a threesome. I hadn't been expecting that at all.Definitely a erotic romance worth reading though. But beware that there is some descriptive m/m action. So if you don't like that don't read this one.A. 4 ½ stars.But only if they live. But he'll have to get through Thorn and Cam first. Seriously. They dont know who she is but she's smokin hot.
