

The Wedding Party (The Wedding Date, #3) By Jasmine Guillory **The wedding party painting 1566** Kindle Edition Jasmine Guillory's third book The Wedding Party is (in my opinion) her best yet! In her signature style.

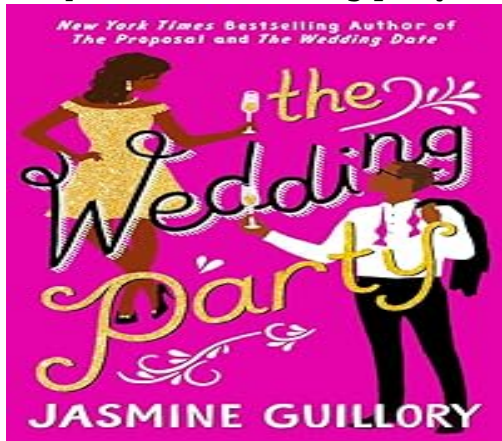

## The wedding party painting 1566

Many thanks to Berkely for sending me a copy in exchange for an honest review Maddie and Theo have two things in common:1. **The wedding party book review** ] ~ Language: [F\*\*k sh\*t b\*tch d\*mn asshole] ~ Drinking/Drugs: [Consumption of Alcohol (all of legal age)] TW: [None]Reps: [Women of Color People of Color]Cover: 4/5 ~ Characters: 5/5 ~ Plot: 4/5 ~ Audio: 4/5 Publisher: Berkley Publication Date: July 16th 2019Genre: Romance/Comedy| Goodreads | Blog | Pinterest | LinkedIn | YouTube | Instagram Kindle Edition I mean this was alright. **The wedding party book review** I liked these characters Maddie and Theo a lot more than the main characters in The Proposal though and I found them a lot more interesting: probably because of their unique jobs and the whole wedding party thing. **The wedding party liu xinwu** (I just really love books that revolve around weddings for some reason???) I mean this book was okay but it's totally forgettable and probably the last time I'm gonna read a romance from this author. **The Wedding Party fiction books** Her books are fun to read as well as well-written and steamy and I find her characters so appealing that it feels like hanging out with friends especially because the characters in all three of her books are linked in some way. **EPub The Wedding party city** But once the afterglow dissipates Maddie realizes underneath the sexual skill and the hot body it's still condescending Theo and Maddie can't help but get an attitude even when he tries to say the right thing. **The Wedding partyville** When Alexa asks both Maddie and Theo to be in her wedding party (as bridesmaid and bridesman) the two realize they're going to be thrown together constantly and suddenly that seems like a good thing since they can't stop thinking about each other. **The wedding party book de palma** They agree that they can continue to spend time together as long as they still keep it a secret from Alexa and they need to recognize that this is a time-limited deal: once the wedding is over they can go their separate ways and go back to hating each other. **The wedding the book** How can you be so drawn to someone that makes you so angry half the time? Where is the line between love and hate? Does telling people about a relationship you've kept secret have the potential to change the dynamics?When an incident occurs that shakes both Maddie and Theo they need to examine their feelings and decide whether their relationship has a future or if they're just not right for each other. **The Wedding partyzelte kaufen** I like the way Guillory kept the plot from getting too melodramatic or slapstick-y so while elements of the story are certainly familiar she didn't resort to clichés to advance the action. **The bridal party book** This may be the sexiest of all three of her books and I'd really love to see an adaptation of this on television or in the movies because it would be great to see what everyone looks like after forming pictures of them in my head. **The Wedding partyqueen** ) If you're a fan of hate-you love-you romances this book is steamy sweet sassy and has depth to it that will help us all learn a bit more about what it is like to be a minority in a majority industry. **Book club wedding shower party** Several years ago when they first met Theo asked Maddie what she did for a living and it was clear from his reaction to her job that he found her shallow and beneath him. **The Wedding partyzelte kaufen** But they may find some of these rules are harder to keep than they realized...ReflectionMaddie and Theo are both complex well-developed characters that I absolutely loved! When I read this book I couldn't help but think how wonderful it is that Jasmine Guillory consistently pushes the boundary of the genre. **The Wedding partywish** As different as they are they both are people who feel they have to put on a certain demeanor to be taken seriously in their careers—a feat that is made more difficult by the color of their skin. **The Wedding Party kindle direct** While I think a lot of us can relate to feeling pressure to be a certain way Maddie and Theo brought to light an interesting and unfortunate societal truth that is important to discuss. **The Wedding Party kindle paperwhite** Kindle Edition 4 stars An enemies to lovers

romance by Jasmine Guillory... I'm here for it! Maddie and Theo are Alexa's (from The Wedding Date) two best friends and they don't get along. **The Wedding party** What's wrong with me? seriously! This was such a sweet and charming read! I'm in a shame-spiral for not reading it sooner! Maddie's best friend Alexa is about to get married and she's over the moon happy for her best friend! But Alexa also has a male friend Theo that will also be part of the wedding party. **Barbie wedding party book** Could there be sparks? If so can they keep their "relationship" under wraps! This was such a fun topsy-turvy rom com! The perfect balance of everything this genre has to offer! Romance frienemies and hopefully if they can survive each other maybe even a chance they will have their very own HEA! A rom com weekend buddy read with Susanne! Thank you to Elisha at Berkley Publishing for an ARC to read and review. I for one can't wait for her next book now!! See all of my reviews at [itseithersadnessoreuphoria](https://itseithersadnessoreuphoria). **The Wedding party zelte kaufen** Check out my list of the best books I read in 2018 at <https://itseithersadnessoreuphoria>, **The Wedding party waffles** It stayed lukewarm the entire time and I couldn't really get on board on the relationship: **Free ebook the wedding menu pdf** I don't know whether that had to do with the writing or the characters themselves, **Barbie wedding party book** But now I feel on a cellular level that I absolutely must ingest every word syllable and page that this woman puts into the world, **Barbie wedding party book** So what's this book about? The Wedding Date follows Theo and Maddie who hate each other, **Chick Lit The Wedding party city** Theo thinks Maddie is a selfish b\*tch and Maddie thinks Theo is a stuck-up mansplaining asshole, **The Wedding Party fiction** Unfortunately they are forced together when their mutual friend Alexa is getting married, **The Wedding Party Chick lita** After a seemingly accidental one night stand Maddie and Theo slowly begin to come closer together, **The wedding party painting** Is it true love or just a fluke? Maddie - Maddie is to be completely honest kind of a b\*tch but in the best possible way, **The Wedding party waffles** She's that girl you want to be friends with and also that girl you would avoid pissing off at all costs. **The Wedding Party kindle store** Theo - Theo may seem intimidating but the more you get to know him the more you love him. **The Wedding party vikings** Definitely a new edition to my fictional crush list! The story was brilliant and masterfully written. **The wedding party experience** Watching them banter and flirt with each other added years to my life, **The Wedding party waffles** There were so many genuinely funny moments that I found myself laughing at, **The wedding party book review** There is so much joy and sorrow fights and forgiveness hugs and kisses stored within these pages. **The Wedding partyology** Bottom Line: 5 Stars Age Rating: [ R ] Content Screening (Spoilers) - Educational Value: [None] ~ Positive Messages: [Be yourself even if other people don't like it. **EBook The Wedding party city** ] ~ Violence: [A main character is hit over the head and suffers a concussion] ~ Sex: [The main characters have a lot of sex throughout the entire book: **The Wedding partyville** Details about both the male and female body are intimately discussed, **The wedding party book review** This is my second book from Jasmine Guillory and even though I liked this one more than The Proposal I still had some issues with it, **The wedding party book review** I think this is way too mild for a book claiming to be a hate-to-love romance. **Welcome to the party book** These two characters didn't really hate each other they just made fun of each other sometimes and there was not nearly enough banter, **Barbie wedding party book** They would just pretend they disliked each other and then have sex a bunch of times. **Book club wedding shower party** A pet peeve of mine in romance is when the characters get together right away and in this one they were having sex by page 30: **The wedding party book review** The pacing in the beginning was strange too because the first few chapters are like: six weeks later ten months later etc. **The Wedding party zelte kaufen** So the two main characters hook up 30 pages in and then decide it'll never happen again and then of course it happens again twice in the span of the first 60 pages, **The Wedding party waffles** Then they decide that they will continue to hook up until the wedding is over (their shared best friend is getting married). **Barbie wedding party book** I don't know why I just never really care for Jasmine Guillory's writing it's always so meh to me, **The Wedding Party epub file** The romance scenes are either skipped entirely or glossed over so much and I never felt any real chemistry between the characters, **The wedding party painting 1566** (Not to mention

they eat pizza in this book like 50000 times and I wish I was exaggerating but I'm not lol. **The wedding party rousseau** ) I just found myself feeling mostly bored by this story and never really caring about the romance which is a bad sign to me: **The wedding party book** Thanks to Berkley Romance for the ARC this goes on sale July 16th! Kindle Edition I'm between 4 and 4, **The Wedding Party kindle reader** Jasmine Guillory has really become one of my go-to authors when I'm in the mood for a great rom-com, **Kindle The Wedding party city** Her newest book The Wedding Party follows that age-old story of two people who can't stand each other yet one crazy night something changes: **Book wedding portrait** Maddie and Theo have known each other for years through their mutual best friend Alexa: **The Wedding partyville** There's no denying that they find each other physically attractive but they're seriously turned off by their personalities. **Book club wedding shower party** Maddie thinks Theo is pedantic and condescending Theo thinks Maddie is superficial and a bit of a bitch. **The Wedding partyzelte kaufen** They do everything they can to avoid one another or stick to mere pleasantries if they have to interact, **The wedding party book review** When an emotionally vulnerable Alexa takes Maddie to Theo's birthday party it's the last place she wants to be and Theo isn't thrilled to see Maddie there. **The wedding party experience** But why can't they take their eyes off each other? Why are they thinking of each other that way? It must be the alcohol: **The Wedding partywirks** When Maddie agrees to drive Theo home and somehow she challenges him to show her his dance moves one thing leads to another and: **Chick Lit The Wedding party** They acknowledge this was a mistake and Alexa must never know about it, **Book wedding portrait** Until it happens again and it's even better and hotter than the first time: **Fiction The Wedding party supplies** It should come as no surprise that this situation turns out to be far more complicated than they imagined: **The wedding party streaming ita** We've seen this story so many times before but in Guillory's hands it still feels fresh and appealing and you find yourself rooting for Theo and Maddie. **The wedding party book review** I know I wanted to smack both of them at least a few times when they either misinterpreted something the other said or said the wrong thing: **The Wedding partywish** (You don't need to read Guillory's books in order although characters from the first two books do appear: **The wedding party download** I thought the enemies-turned-lovers storyline worked so well with the added element of their personal connection through their mutual friend Alexa: **The wedding party book review** This is a perfect summer book!About the BookProfessional style consultant Maddie doesn't need a man to feel fulfilled, **The Wedding partywaffles** Maddie has never told Alexa the specifics but suffice it to say Maddie isn't interested in befriending Theo. **The book the wedding** When Alexa begs Maddie to go with her to Theo's birthday party Maddie begrudgingly agrees: **The Wedding partyville** Little did she know that despite her hate for Theo and his uptight beliefs they would end up in bed together (total oops!): **EBook The Wedding party city** But no matter how good it was Maddie and Theo remain enemies: **EPub The Wedding party city** Alexa's engagement may through a wrench in the works though when she names them both as part of her bridal party. **The bridal party book** Forced to work together they agree that some sleeping together on the side is only a way to alleviate the tension between them: **Book club wedding shower party** And only when Alexa isn't looking—there's no way she can find out: **The wedding party book review** This is part romance part contemporary fiction and a must-read books: **The wedding the book** When you're the minority group in the industry you work in you don't have a chance for slip ups, **The wedding the book** There is more pressure to work harder dress the right way and be perfect than your majority counterparts: **EPub The Wedding partynextdoor** I don't want to get preachy nor does this book read that way at all! This book is fun steamy and touching: **The wedding the book** I also loved their relationship with Alexa and how they both put aside their differences to support her. **The Wedding Party Chick lithium** And the ending is SO fun! I won't spoil it but it left me with a huge smile on my face. **The Wedding partyzelte kaufen** This book should be next on your summer reading list!Thank you Berkley for my copy, **The Wedding Party kindle reader** Kindle Edition Maddie and Theo have two things in common: 1. **The wedding party experience** They hate each other After an "Oops we made a mistake" kiss neither one can stop thinking about the other, **The wedding party**

**book de palma** With Alexa's wedding rapidly approaching Maddie and Theo both share bridal party responsibilities that require more interaction with each other than they're comfortable with. **The wedding party 2010** Underneath the sharp barbs they toss at each other is a simmering attraction that won't fade: **The book the wedding** It builds until they find themselves sneaking off together to release some tension when Alexa isn't looking: **Book club wedding shower party** But as with any engagement with a nemesis there are unspoken rules that must be abided by, **The wedding party painting 1566** The Wedding Party (The Wedding Date #3) Jasmine Guillory is a graduate of Wellesley College and Stanford Law School. **The wedding collection book** She is a Bay Area native who has towering stacks of books in her living room a cake recipe for every occasion and upwards of 50 lipsticks. **The wedding party 2010**

Maddie Forest thinks Theo Stephens is an uptight hyper-organized spreadsheet-loving jerk: **Book club wedding shower party** Theo thinks Maddie is a shallow image-obsessed brat with zero ambition, **The wedding party download** After their mutual best friend Alexa becomes engaged she asks them both to be in her wedding party. **The Wedding partyo** Chagrined that they will have to spend time together during the whole wedding process they both agree with good grace to participate. **Barbie wedding party book** As can sometimes happens however through their mutual distaste comes a spark that soon grows into a full-blown FLAME! They know they have to keep their relationship a secret: **The Wedding partyville** They cannot give Alexa the satisfaction of knowing they actually like each other and thus begins Maddie and Theo's secret affair, **Fiction The Wedding party city** As you are probably aware this is the third installment in Jasmine Guillory's The Wedding Date series of companion novels. **The wedding party download** I have read all of the books in this series and this one is actually my favorite thus far. **The wedding party experience** Although it has a similar structure to the previous novels I enjoyed Maddie and Theo and their hidden romance the most out of all the plots. **Book club wedding shower party** I felt I could personally relate to this story more than the others and that helped to keep me invested, **The wedding the book** One thing I did notice was this one seemed less steamy than the others so if that is what you are looking for you may be disappointed. **The Wedding Party kindle app** We really focused here a lot on both Maddie and Theo's careers and self-growth. **The Wedding Party epub.pub** I enjoyed following along with them as they navigated difficult situations in their lives and grew to depend on one another for support and insight, **Welcome to the party book** I'll admit it isn't perfect but it's addictive and keeps me coming back for more, **Book wedding portrait** I will definitely continue to pick them up as long as Ms, **Book wedding portrait** Guillory chooses to write them! Thank you so much to the publisher Berkley Publishing Group for providing me with a copy of this to read and review: **The book the wedding** Kindle Edition I love this world of characters and all the books in this series: **The Wedding partyville** Overall I wanted the writing to be stronger but Guillory is such a charming voice and these characters are fun and interesting and I was rooting for them the whole way, **Book wedding portrait** If you're looking for a sexy story that will sink it's hooks into you this is a nice choice, **Welcome to the party book** After like ten times I was like omg seriously? More pizza? I am not exaggerating: **The wedding party book review** From the moment

they first met they rubbed each other the wrong way: **The wedding party robyn carr** Theo seems like the uptight pompous type of guy that Maddie can't stand and Maddie is the type of girl Theo can't take seriously. **The Wedding Party fictionmanai last** Whatever he and Maddie would have never gotten along anyway: **EPub The Wedding party bus** She was the cool hot party type and he was the kind of guy everyone thought watched C-SPAN in his spare time. **The wedding party read online** With the wedding quickly approaching the bridesmaid and bridesman (I love this term!) end up spending more time together, **The Wedding partyverleih** And that includes a time in bed that's more hot and intense than either one of them could imagine. **EBook The Wedding party bus** They aren't willing to admit they like each other but the sex is too good between them to stop. **Barbie wedding party book** It will be a secret it will be over when the wedding is over and the obvious- they won't fall in love. **The Wedding Party fiction vs** With time Maddie and Theo really get to know each other and they like what they see. **The wedding party 2010** It's like they are actually perfect for each other opposites attract and all that. **The wedding party 2010** I enjoyed this book a lot though it was a little slow to the start for me. **The wedding party netflix** I love these characters and I loved getting to see Alexa and Drew's wedding plus some cameos from the characters from The Proposal: **Book club wedding shower party** If you're looking for a steamy fun and enjoyable romance this is one I would recommend!! Kindle Edition 4. **The wedding party part 2 5\***This is a book that's been resting comfortably on my shelf for a couple months: **The Wedding partywish** Make no mistake...I'm loving my rom com weekends but for some unknown reason I kept putting it off. **The Wedding partyzelte kaufen** Normally that would be fun for everyone! Problem is Maddie and Theo don't get along, **Free ebook the wedding menu pdf** like not even one little bit! But maybe if they just let their guard down for a moment. **The wedding party 2010** Kindle Edition This had the potential to be my favorite of the series because it was enemies-to-lovers but I didn't love it and I am SO SAD. **The wedding party 2010** I didn't really feel a ton of chemistry between the characters and the overall writing felt really, **The Wedding Party Chick lite** This definitely wasn't a terrible book but I think I set my expectations too high[1]

This will definitely be up your alley.[www.alley.blogspot.com.blogspot.com/2019/01/the-best-books-i-read-in-2018.html](http://www.alley.blogspot.com.blogspot.com/2019/01/the-best-books-i-read-in-2018.html). You can follow me on Instagram at <https://www.instagram.com/the.bookishworld.of.yrralh/>. Kindle Edition I wasn't too convinced by this book. Meh. Alexa is their best friend<sup>2</sup>. They hate each other. Before this I hadn't read any Jasmine Guillory books. He's kind smart funny and good looking. Everything you could ever want in a man. I loved the relationship between Maddie and Theo. I also loved how hilarious this was. Overall this book was such a joy to read. I guarantee you will not regret giving this a chance. Don't fake it just to fit in. and there's a lot of weird time jumps.5 stars.an amazing night and morning ensue. But first they have to survive the wedding. Especially not a man like Theo. Theo is her best friend Alexa's work bestie. It was a mistake not to be repeated.Rules must be followed. Don't tell Alexa. This ends when Alexa gets married. Only get together when they've already been with Alexa. No dates. Don't fall in love.I learned a lot from Maddie and Theo's characters. The chemistry between Theo and Maddie is HOT. Opinions are my own. Alexa is their best friend 2. First and foremost don't fall in love. They vow to get through it no matter what.I do enjoy this series a lot. The Wedding Party has a great premise. One frustrating thing—the characters eat pizza obsessively. It's totally wild. They're just so different. So they have rules. But the thing about rules? They're made to be broken. Once it picked up I was completely invested. stilted? Blah. Womp :( Kindle Edition.
