

The Naked God 1: Flight (Nights Dawn 3) By Peter F. Hamilton Paperback Viel ist passiert in der ersten Hälfte von „The Naked God“ auch Überraschendes und das Gefühl dass das Ende nicht mehr fern ist durchzieht fast jeden Handlungsstrang und dass obwohl noch über 1000 Seiten warten. The Possessors from Beyond (our own dead spirits from millennia past if you've been reading the series) are gaining ground by most measures although infighting is a bit of a hindrance to them. There is much in this book and much has to happen in the final book Paperback This breathtaking climax to the acclaimed saga of The Reality Dysfunction and The Neutronium Alchemist finds the Confederation on the verge of collapse as more and more star systems fall to the Possessed. Forse avrei dovuto resistere ancora qualche pagina considerata la fama che avvolge questa serie ma se la si confronta con altre saghe di new space opera come quelle di Alastair Reynolds c'è un abisso e la vita è troppo breve per perdere tempo con quello che non ci convince. As of the publication of his tenth novel in 2004 his works had sold over two million copies worldwide making him Britain's biggest selling science fiction author. Attraverso una terribile infezione il nemico minaccia ormai il pianeta più protetto: la Terra, La setta di immortali che segretamente la dominano reagisce debolmente ma forse la salvezza è ancora una volta nello spazio: Lassù Edenisti e Confederazione decidono di giocare l'ultima carta: inviare una spedizione a cercare l'antica razza che a suo tempo avrebbe sconfitto la crisi della realtà. Gli indizi sono vaghi il fatto in sé è una leggenda il tempo è poco: Ecco una caccia che richiederà tutta la fortuna di Joshua Calvert! Paperback The vividly told story continues with the story being told from many points of view: This not only shows how crisis effects individuals and governments alike but also brings Hamilton's world alive, Having to keep track of all the threads can be difficult at times and some important characters of the past books link Dr Alkad gets sidelined. The doomsday weapon is developed and debate regarding it's use continues, Another interesting plot point is the political developments around the crisis. What really surprised me was interactions of the possessed of Ombey, The clash of characters of Staphanie and Ekelund was astoundingly well told. Cochrane was a blast; absolutely loved him with his hippy references and accent, The division of all the books in the series seems arbitrary. So deutlich wie hier hat ist mir noch nie aufgefallen dass das Buch einfach vollkommen willkürlich in zwei Teile gerissen wurde ein wirkliches Urteil ist also kaum möglich, Aber dass ich unbedingt wissen möchte wie alles ausgeht spricht ja schon mal nicht gegen den „Roman“. Paperback So langsam stolpern wir auf den Showdown zu aber noch ist alles offen, Ein bombastisches Epos in Science Fiction!Für Band 5 der 6bändigen Reihe Der Armageddon-Zyklus gebe ich 09/10 Punkte, Paperback This is Book 5 of a massive six-book space opera, The human governments are beginning to find ways to resist them and their powers to some extent but progress is slow and inconsistent: One group of humans is off on a desperate flight to the other end of the galaxy to try to learn how other species have battled this threat: Nothing is certain especially as we begin to question the motives of one powerful group in the Earth government as we learn of some uncertain allies and actions, An alien god may hold the solution to the crisis--if Joshua and Syrinx can discover it in time. The Naked God 1: Flight (Nights Dawn 3)

La meravigliosa saga comincia la sua epica conclusione Paperback OK, This is it! The big finish after 3000+ pages! Not bad! Not as good as his later work but a solid fun read, Paperback All the same positives and negatives of the previous books: Impressive scope but often feels bloated and there is a lot of unenjoyable torture: Paperback Awesome space opera fast pacing with many threads of the story! Paperback.
