This is my frank freely posted review. This was a fast paced story of suspense and intrigue. They need to find two missing women. One is the daughter of an Admiral. A call came in saying they were kidnapped. A few days later they came up dead. They are locked in a small hut. The action just keeps coming and coming. The plot was a smooth one for the most part. She really seemed to come on quickly to Keane. They have more experience in that area. Why talk back? This is a sexy read. There were just a few scenes near the end. I volunteered to read this book via Booksprout. Two people went missing. A few days later two bodies show up - both shot. They were reported as going overboard when a squall hit. Not from drowning but from a bullet. Of course nothing ever seems as easy as it seems. A head injury and out of it. With no way for a rescue that she could see. When it seemed hopeless rescue came. but danger showed up as well. The Mavericks Series has been enjoyable. **\*\*Sexual content and language** <https://justjudysjumbles.blogspot.com>.
