

An Unexpected Obsession By Heidi Hall **An Unexpected Obsession booking** unknown normal gal meets insanely hot and famous author and they fall in love great right? But here's the kicker the author made it even more interesting by making the heroine 35 to the hero's 25! Plus the heroine is accomplished and wealthy in her own right. **An Unexpected Obsession epub file** but sadly these obstacles changed the ENTIRE FEEL and reality or should I say suspension of reality that the book went so downhill that by the end it was completely tanked and the characters unredeemable in my opinion. **Kindle An Unexpected obsession perfume** He does everything in his power to make his brother miserable and to drive Cameron and Ava apart in fact succeeds several times and yet Cameron KEEPS HIM ON as his manager saying it would be too much trouble to replace him. **An Unexpected Obsession pdffiller** and gives stupid excuses!!! The author had set him up to be this amazing superhuman hero who would DIE for her he loves her so much but then basically tears that entire character personality apart with the actions in the second part of the book. **PDF An Unexpected obsession synonym** Also the studio has Cameron locked into contract to date his co-star and again instead of telling them to go and shove their contract where the sun don't shine he uses it as a reason to a) break up with Ava b) drive her away c) be away from her when she MOST needs him ahem being in the family way anyone? Maybe in real life a movie star wouldn't throw away all that money and possibly be sued etc. **Book An Unexpected obsession nandina** but this is a ROMANCE where the hero has been set up as the end all be all I LOVE YOU TO DEATH FOREVER guy in this reality he should not be a puppet to anyone! I was mystified I kept wondering where that shy adorable endearing handsome Hollywood hunk went the one who kept saying over and over that he couldn't live without her. **EPub An Unexpected obsession perfume** but after that moment she became a total pushover! The moment she admitted her undying love to Cameron it became hey lets not make waves in Cameron's life and oh you can have a fake torrid romance with your costar while I pine away for you over here and worst of all sure people and strangers and the press heck my own friends are calling me horrible names think I'm a home wrecker that I'm sleeping around that I'm a cougar and a gold digger and say as much when they pass me but that's fine because I know that after 8 months more you will come home to me. **An Unexpected Obsession book** Seriously?!?! What self respecting woman would accept that load of crap?? And what man worth a dang would make her accept it?! Yes I was really upset that a book that showed so much promise ended up being such a pile of rubbish. **An Unexpected Obsession pdffiller** I honestly want my money back and I have rarely felt that! Heidi Hall I had every intention after finishing My Double Life to go onto The Hunger Games but n Unexpected Obsession was recommended to me on GoodReads and I was drawn in. **Kindle An Unexpected obsession definition** At the end of the book I realized that everything with Cameron's brother could have been easily fixed with a conversation explaining what his brother was doing what he did but this would have taken much away from the book. **PDF An Unexpected obsession** There were some things however that didn't add up to me:1) When she left him after walking in on him and his costar he couldn't handle it triggered her alarm almost got arrested told her he couldn't live without her literally had a meltdown etc. **An Unexpected obsessional synonym** 2) But when it came down to the studio possibly suing him for breach of contract because he was with Ava he was able to break up and leave her without a problem at all. **An Unexpected Obsession ebook3000** When it came down to that fact that he would possibly never make another movie after being sued and would have to pay back large sums of money to the studio then it was okay to walk out on Ava. **Kindle An Unexpected obsession book** With Cameron knowing all that he did to him and Ava drugging him on purpose breaking into Ava's apartment in London stealing her journal with all that private information about her and Cameron's relationship he still hired him back. **Book An Unexpected obsession netflix** Successful author college professor what does it matter if she doesn't get out much? Passion really is overrated isn't it? Everything in her life is running smoothly until Cameron walks into her classroom. **EBook An Unexpected obsession synonym** So why does his life feel like just another role he's playing? Can a chance encounter with a shy bookworm awaken his sleeping heart? Can Cameron break down the carefully constructed walls Ava has built? Can Ava survive Cameron's overwhelming fame and

having her life exposed in the tabloids? Will he find the life he never realized was all he really wanted? Will she discover a dream she has been too afraid to wish for? And Ava supports this decision by saying he's family we can't break up family: **PDF An Unexpected obsession synonym** So you lose total respect for both of them but mainly for Cameron and his big declarations of love. **An Unexpected obsessional neurosis** It gets worse though!! An Unexpected obsession nandina Everything doesn't magically fall into place with them and they do have to face many struggles to be together. **An Unexpected Obsession ebooks online** I did have a few issues with the book but they weren't enough to distract me from the story: **PDF An Unexpected obsession synonym** Ava's outfit for the GQ party seemed a bit too far-fetched for something she'd wear: **PDF An Unexpected obsession synonym** I could understand her buying it on a whim at a trunk show but couldn't picture her wearing it outside of the house on any day but Halloween. **An Unexpected Obsession epub.pub** I felt as though Scarlett was an under used character and really only there for Ava to complain to or gossip with I really wish more was done with her, **EBook An Unexpected obsession perfume** While I'm much more of a YA fan I really got into this storyline. **EBook An Unexpected obsession book** Heidi Hall took a storyline that's often featured in cheesy books and movies and turned it into a believable and page turning read: **Book An Unexpected obsession cast** I'd love to see a made-for-TV movie which stays true to the book made for this story, **Book An Unexpected obsession netflix** For the readers out there who wonder what could happen if you ran into that celeb you have a crush on I highly recommend An Unexpected Obsession, **An Unexpected Obsession kindle** I will certainly keep an eye out for more releases by this author! I was pleasantly surprised to find that it was neither. I was long and fabulous. The book had everything I love. The guy (Cameron) was hot and so sweet. Him and Ava were a great couple. Their chemistry literally leaped off the pages. But apart from thatit was a cute story. I suggest that everyone give it a chance. Another big hello for a smart lady you sure are stupid.he continually drives her away OR breaks up with her. And Ava. aweeeeeee how sweet I almost puked a little in my mouth. Which his actions did make for some page turning suspense.Overall I really enjoyed An Unexpected Obsession. I enjoy the movie star meets small town girl books. Cameron Sloane was edible. And he did it on a PLANE. So very wrong. Maybe I missed that but I don't think I did.4) Cameron hired his slimy brother Geoff back as his manager. Now that REALLY threw me. He should have had him arrested instead. That was dense.Overall it does deserve 4 stars. Good read. *This book contains some erotic subject matter. Duh. I woke up at two in the morning Monday.decided to read. I gobbled this up in four hours. I liked this book. Loved Ava.She was real independent and smart. Talk about drama and romance! Heidi Hall 3.75 StarsIf you're a fan of inst-love this is for you. I found it rather enjoyable. Full review to come :) Heidi Hall
