 Audio CD When you open a collection with T. **Book Selected shorts** Audio CD From silly chuckles and rueful ironic glee to deep cosmic laughter this new volume of humorous tales samples the best of recent seasons of the popular public radio series Selected Shorts. **Book Selected shortstop** Featuring some of the biggest names in Hollywood as performers this collection finds Emmy Award-winning actor Alec Baldwin enacting Julia Slavin's "Covered" a far-out funny story of an unraveling thread and its grip on the protagonist. **The night bookmobile selected shorts** Boyle's tale about a guy who doesn't know when to apply the brakes to his telling of lies Julia Slavin's corporate-funeral farce Mathews's loony satire on how to cook a ridiculous French dish (which does go on a little too long) and Philip Roth's look at life at a Jewish Yeshiva in the 1950s (or thereabouts). **Selected shorts submissions** 02:The Lie-- depressing
 The Spray-- weird
 The Swim Team-- sad
 The Schartz-Metterklume Method-- entertaining
 **Country Cooking from Central France: Roast Boned Rolled Stuffed Shoulder of Lamb (Farce Double)-- good funny and well-performed
 Yma Dream-- fun and entertaining
 Covered-- weird
 The Conversion of the Jews-- interesting but overall so-so
 So I guess I only really liked (and thought were funny) 3 of the 8,
