

Pete the Cat and the Supercool Science Fair By James Dean 978-0062868350.

Pete and his friends have a blast at the school science fair! In Pete the Cats Supercool Science Fair from New York Times bestselling author/illustrator team Kimberly and James Dean Pete the Cat and his friends are excited to build the coolest volcano ever for their school's science fair. Yet after seeing their other classmates' creations they can't help but wonder: is their volcano good enough to win first place? Thankfully Pete has a sparkly surprise up his sleeve! Pete the Cat and the Supercool Science Fair In 2004 Kimberly and James Dean sat down at their kitchen table to work on a children's book together. Both left corporate jobs in the late nineties (James was an electrical engineer; Kimberly worked in the press office of the governor of Georgia) to pursue their passion for art and they have experienced a life made up of strange and wonderful coincidences ever since. This is a cool story book for young children who are experimenting with science. It lists the ingredients it takes to make the volcano and it also lists the steps it takes to make the volcano. It also shows teamwork. Teamwork is very important for young children to learn how to work with others while respecting their ideas and opinions.

This is a great way to introduce the scientific method: Plus both my daughter and I love Pete the Cat! 978-0062868350 Llega en tiempo y con la mejor calidad Gracias 978-0062868350 4 pages of stickers only.
